

# Web Developer

We're looking for a Website Developer to help upgrade and maintain our site! You'll work with our team to enhance user experience, set up tools like Google Workspace, and provide tech support.

Flexible hours and a great opportunity to gain hands-on experience.

**Deadline Oct 30th**

# About the role

- Set up and manage Google Workspace for the team
- Develop and enhance the submission portal
- Upgrade website functionality to streamline user journeys
- Provide technical support for web-related issues to the team
- Optimise website performance and ensure responsiveness across devices

**Deadline Oct 30th**

# What we're looking for

- Experience in web development and user experience
- Strong problem-solving skills and a proactive mindset
- Attention to detail in *coding* and design
- Excellent communication and collaboration skills
- Ability to adapt and learn new technologies

**Deadline Oct 30th**
